

## Christmas is cancelled....

Following on from our article on page 1 - how things could be if we leave it to the EU....

Euro leaders are to decide if they should cancel Christmas or not. The state of the economy looks like it may be a yes. "The Italian Prime Minister always buys the Greek Prime Minister a present and vice versa but this year it would appear that neither Country can afford to do it" said a Euro insider.

It is thought the British Prime Minister has bought the President of the United States a small Island and as an added gift says he will fund the Island for at least ten years. The US President has responded by sending more Mexicans over to Britain to help with work that isn't there. Even Father Christmas is feeling the pinch "I'm only using two reindeer this year, the others will be Christmas Dinner"

## Remembrance Day

We were very proud to support all members of the British Armed Forces, past and present, by displaying poppies on our vehicles for Remembrance Day.

## Staff News

We are pleased to welcome new tanker drivers to our various depots. Russell Harrison at Stourport, Rob Yeomans at Callow Gas and Dave Stevenson at Hereford. We are also joined by Doug Vaughan as the new Stourport Flat Truck driver, also delivering gas cylinders and in the office at Stourport we welcome Charlotte who is helping us out through the Winter.

At Stourport we have been busy making damson gin which is currently in the stores developing as Mr Callow had an abundance of damsons at home crying out to be used. It is due to be bottled very shortly but early tasting has suggested it will be a great success. Stourport driver, Nick Perkins, celebrated 25 years of service with a gold watch in November. Well done Nick and heres to the next quarter of a century !

## Jims Corner

I can hardly believe that Christmas is nearly here again and that the Editor has asked me for my contribution - so here goes !

My first job after Burwarton Show is to collect the day old turkey poults from Hiline at Seifdon. At that time it seems hard to imagine that these balls of fluff would be 18lb in weight in time for Christmas. I am very fortunate in so much as Frank Carter and his wife from Far Forest feather them for me and Trevor the Butcher dresses them. Of the ten that I raise each year I donate two to a charity raffle for the Air Ambulance and have been thrilled with the amounts raised for them thus far.

At the same time I aquired 12 day old pullets but being from an old fashioned supplier I got a bakers dozen and have managed to rear them all. By my reckoning they should start to lay on Christmas day. Sadly my current ones seem to have given up laying and have been reduced to only 3 in number following visits from Charlie Fox.

With regards to work, the exceptionally mild Autumn has made things very easy for us regarding deliveries however please dont be lulled into a false sense of security. I am sure Winter will come in some form or another in due course and while we believe we are better prepared than most to cope with the increased demand inevitably delivery lead times may be stretched so Jims top tip is "Have plenty in stock from now until March"

All that remains for me to do now is to thank you for the business placed with us over the last twelve months and to genuinely wish you a very Happy Christmas.  
Regards,

## AdBlue

AdBlue® is an ultra pure solution of urea in demineralised water, used in the latest generation of commercial diesel vehicles for the removal of Nitrous Oxide (NOx), an environmental pollutant. Euro 4 emission regulations introduced from October 2006 further limited the amounts of Nitrous Oxides (NOx) and particulates that commercial diesel vehicles could emit.

To reach these standards, the majority of truck manufacturers have chosen the Selective Catalytic Reduction (SCR) system as a common solution. The fuel for the SCR system is called AdBlue®.

Callow Oils are distributors for Tennants Adblue and can supply it in 18ltr, 205ltr and 1000 IBC's. We also sell 2500 and 5000 Adbluc storage system tanks and then you can buy product in bulk at very competitive rates. We sell the 18ltr for £12.95, the 205ltr for £105.51 and the 1000ltr IBC for £330.00. If you buy in bulk then for 2000-3999 lts we charge 26.50ppl and for 4000+ lts we charge 25.50ppl. All prices exclude vat at 20%. If you are interested in discussing this or placing an order then please call us on 01299 828800.

## Burwarton Show 2011

We had a very good time at the Burwarton Show in August and were delighted to once again win the trophy for "Best Trade Stand".

We were fortunate enough to be able to book Jean Martyn from Britains Got Talent to perform for us and she certainly delighted the crowds and staff.
